

# THE HERO IN HEROIN: A MOTHER AND SON'S JOURNEY ON BOTH SIDES OF THE VEIL

BY MINDY FELCMAN MIRALIA

ISBNs: 978-1-5043-2637-7 (sc), 978-1-5043-2639-1 (hc), 978-1-5043-2638-4 (e)

*Moving, graceful, and poetic. Challenging, tragic, and transforming. Inspiring, frightening, and empowering. Rarely has a book touched me so deeply. From drugs to destiny, from sorrow to synchronicity, we are invited to enter Mindy's and Micah's minds and hearts, and through this extraordinary journey, awaken. Be prepared for your current vision of life and love to be enriched and elevated.*

--Gary E. Schwartz, PhD author of *The Afterlife Experiments* and *The Sacred Promise*

*This absorbing and brave book reveals sorrow and hope, walking hand in hand, bound together by compassion. With great storytelling skills, Mindy reveals the emergence of unconditional love as she strives to support her son and his addiction. Micah's own writings about his challenges bring greater depth to a book essential to those who find themselves in similar situations.*

--Christine Page, MD, author of *The Healing Power of the Sacred Woman*

*Mindy's story conveys an alternative experience of reality and human consciousness... the potential for one special human being's spiritual transformation. The synthesis, synchronicities, and balancing of Mindy and Micah's experiences exemplify the evolutionary nature of unconditional Love.*

--John Demartini, DC, author of *Inspired Destiny*

## ABOUT THE BOOK

As many people as walk the earth, that's how many journeys and pathways there are to soul growth. And, yet, there are many who are challenged by the very same issues, dressed up in different guises. Any who have suffered the death of a child, battled addiction within their families or themselves, or have known someone hooked on any repetitive idea, substance or compulsion they can't seem to shake, will understand, feel compassion for, and resonate with the journey of *The Hero in Heroin*.

Mindy offers an honest unveiling of her trials, successful and not, in her quest to achieve harmony in her life, choices, parenting and healing. Along the way, she shares the lessons of healing, energetic and spiritual, available to all of us when we see through a new lens. A Christian in her personal practice who has lived around the world, she opened her heart to learn from other religious and spiritual heritages. Through studies in energy medicine and spiritual healing, she expanded her intuitive muscles to communicate with her son after his death.

In three parts, the book first describes her perspective and emotions as a woman, wife, mother and daughter moving through life while seeking to become better in each role hoping that those around her would suffer less and become whole. In the second section, she recounts the ways in which her departed son reveals himself to her and others around her in his attempts to heal himself and the relationship with his mother. We also glimpse the unfolding path of healing and mission that Mindy pursues. And in the third section, the soulful writings by her son lay bare the struggles of life and addiction from his perspective.

For some, the evidence from across the veil will offer comfort that there is indeed an "afterlife" or continuity of souls, and that even after the transition from earthly life, healing can continue. For others, the guidance and actual tools for healing that Mindy experienced and developed will inspire. What is sure is that this book will open your heart and invite a greater understanding of your own journey and healing in this lifetime.

**MINDY MIRALIA** is a pioneer and adventurer, catalyst and change agent, passionate about helping people find meaning in their lives and experience personal transformation. Early in her career, she paved the way for women in international business, and she brings that same spirit of entrepreneurship to her work today.
